

Are Your Course's Trees Up To Par?

TREE & GREENERY CARE FOR GOLF COURSES

We understand the need to stay on schedule and budget which is why we create tailored programs specific to your course.

Feature trees are strategic design elements in any golf course. Our professional crews, outfitted with state-of-the-art equipment, enhance sight lines and improve turf quality through root pruning or canopy reduction.

SavATree's certified arborists can work in tandem with your in-house crews to develop customized programs that ensure your greens, tee boxes, and fairways stay healthy, vibrant, and green.

SERVICES WE CAN OFFER

- Restoration, vista, and maintenance pruning
- Safety and storm damage risk audits
- Tailored programs to fit your budget and timeframe
- 24-hour emergency service
- Insect and disease treatments
- Custom blend fertilization
- Lightning protection for feature trees
