

## Protect Your Landscape with Tree Preservation Planning

Trees enhance aesthetics, increase property value, and provide ecosystem services. Preserving your valuable trees during construction, development, or regular landscape care is essential for maintaining your property's health and beauty. SavATree's Tree Preservation Planning helps you safeguard your trees, ensuring they thrive for years to come.

### **BENEFITS OF TREE PRESERVATION PLANNING**

Tree Preservation Planning offers comprehensive benefits that safeguard your investment and enhance your property's overall well-being.

- **Long-Term Landscape Health**  
Protecting your trees ensures their continued growth and vitality, maintaining your landscape's ecological balance and overall health.
- **Reduced Legal and Financial Risks**  
Compliance with regulations helps you avoid fines and liabilities. With this service, you can navigate requirements smoothly, reducing risk.
- **Enhanced Property Value**  
Preserved trees enhance your property's appeal and market value. Mature trees provide shade, beauty, and environmental benefits valued by owners and buyers.

## PRESERVATION PLANNING OFFERINGS

### 1. Site Assessment & Tree Protection Plans

Our expert arborists conduct on-site assessments to evaluate your trees' health and significance. We develop customized Tree Protection Plans with strategies to preserve selected trees during construction or other activities, shielding critical parts like roots and canopies.

### 2. Compliance Checks

Navigating local tree preservation laws can be complex. SavATree Consulting Group ensures your efforts meet all ordinances and standards, helping you avoid fines and legal issues. We stay current with requirements to keep your project compliant.

### 3. Construction Impact Mitigation

We implement strategies to minimize tree damage from construction or development activities. By coordinating with your team, we protect trees from unintended harm, ensuring protective measures are maintained throughout the project.

### 4. Monitoring & Oversight

We provide regular monitoring to ensure compliance with tree preservation plans. Through periodic site visits, we verify protective measures like fencing are correctly maintained. We offer photo documentation and updates to keep you informed. At the project's end, we assess trees to confirm they're in the same condition as at the start, assisting you in fulfilling permit requirements.

## WHY CHOOSE SAVATREE CONSULTING GROUP?

Our expert arborists bring years of experience in tree preservation and urban forestry, providing customized, practical, and science-backed strategies tailored to your needs. Committed to sustainability, we preserve your trees while promoting long-term landscape health.

## PROTECT YOUR TREES TODAY

Safeguard your trees with a customized Tree Preservation Plan from SavATree Consulting Group. Let us help you navigate tree preservation complexities during construction and beyond.
